1970 Ford Trucks: F-100. Ford continued to lead the charge of pickup trucks with more options and attractive features for the new decade. It would prove to be a vital evolution for the pickup truck, as the 1970s would challenge the auto industry in ways nobody could have foreseen. New concerns over vehicle emissions, vehicle safety, and by the end of the decade, fuel economy, would forever change the course of the automobile, and the cost - at least temporarily - would be horsepower.

The fifth generation of the Ford F-Series is a line of pickup trucks and commercial trucks that were produced by Ford from the 1967 to 1972 model years. Built on the same platform as the fourth generation F-series trucks, the fifth generation had sharper styling lines, a larger cab and greenhouse, and expanded engine options.

Vintage trucks rarely get the love and attention they deserve, but someone has clearly invested heavily in this 1970 Ford F-100 short bed pickup. With a laser straight body and slick Black Cherry paint that's about a mile deep, there can't be many out there that are sharper. There's also a great-running 429 Cobra Jet V8 running the show, a tastefully upgraded A/C interior, and lots of originality, resulting in one of the nicest Ford trucks we've ever featured at Streetside Classics.
