Weaving together Jewish lore, the voices of Jewish foremothers, Yiddish fable, midrash and stories of her own imagining, Ellen Frankel has created in this book a breathtakingly vivid exploration into what the Torah means to women. Here are Miriam, Esther, Dinah, Lilith and many other women of the Torah in dialogue with Jewish daughters, mothers and grandmothers, past and present. Together these voices examine and debate every aspect of a Jewish woman's life -- work, sex, marriage, her connection to God and her place in the Jewish community and in the world. The *Five Books of Miriam* makes an invaluable contribution to Torah study and adds rich dimension to the ongoing conversation between Jewish women and Jewish tradition.

The U.S. Navy is ready to execute the Nation's tasks at sea, from prompt and sustained combat operations to every-day forward-presence, diplomacy and relief efforts. We operate worldwide, in space, cyberspace, and throughout the maritime domain. The United States is and will remain a maritime nation, and our security and prosperity are inextricably linked to our ability to operate naval forces on, under and above the seas and oceans of the world. To that end, the Navy executes programs that enable our Sailors, Marines, civilians, and forces to meet existing and emerging challenges at sea with confidence. Six priorities guide today's planning, programming, and budgeting decisions: (1) maintain a credible, modern, and survivable sea based strategic deterrent; (2) sustain forward presence, distributed globally in places that matter; (3) develop the capability and capacity to win decisively; (4) focus on critical afloat and ashore readiness to ensure the Navy is adequately funded and ready; (5) enhance the Navy's asymmetric capabilities in the physical domains as well as in cyberspace and the electromagnetic spectrum; and (6) sustain a relevant industrial base, particularly in shipbuilding.
