Reading The Heats Up

From its founding 65 years ago, the People's Republic of China has evolved from an important yet chaotic and impoverished state whose power was more latent than real into a great power on the cusp of possessing the largest economy in the world. Its path from the 1949

Over the decades, the regime's decisions in the realm of international politics have been dictated concerns about internal stability. In the early days of the regime, Mao and other partleaders
