This beautifully illustrated guide to these striking yet simple plants " offers fresh possibilities " for home decor and more (Publishers Weekly). The incredible thing about tillandsias—a.k.a. air plants—is that they don ’ t need soil. That means you can dangle or perch these easy-care plants almost anywhere. In this gorgeously photographed volume, artist and horticulturist Zenaida Seno explores the creative design and d é cor possibilities of these curious plants. Air Plants offers a comprehensive introduction to tillandsias, explaining their unique qualities and easy care techniques. It also showcases creative ideas for displaying tillandsias—from unique containers, like dishware, leather bowls, and baskets to mounting them on walls and suspending from the ceiling. Six step-by-step projects include a wood mount, a wall hook, lasso-and-hook wiring, a ceramic-frame garden, and three unique terrariums. Seno even shares ideas for living hair accessories and jewelry!

Learn that there is another way to live than collecting more stuff, burning through cash on things we don’t need and filling our lives with time duties that we aren’t enthusiastic about just to stay “occupied.” Minimalism is tied in with living a purposeful, essential and satisfying life through settling on conscious decisions. It implies less mess, fewer time responsibilities, less pressure, nervousness and belonging; additional time, space, and vitality for things that issue to you, more satisfaction, peace, isolation, rest and flexibility. Minimalism backs off life and liberates us from this cutting edge agitation to live quicker. It discovers opportunity to separate. It tries to keep just the basics. It tries to evacuate the trivial and keep the noteworthy. Furthermore, in doing as such, it esteems the purposeful undertakings that enhance life. Change your life today! Harel-Shalev’s study is outstanding. Finally, a cogent and intelligent analysis of the myriad ways deeply divided societies maintain and negotiate democratic practices. This book will prove to be essential reading for anyone interested in the topics of identity politics, public policy, and democracy.---Rebecca Kook, Ben Gurion University --

Considered one of the city’s most notorious industrial slums in the 1940s and 1950s, Brownstone Brooklyn by the 1980s had become a post-industrial landscape of hip bars, yoga studios, and beautifully renovated, wildly expensive townhouses. In The Invention of Brownstone Brooklyn, Suleiman Osman offers a groundbreaking history of this unexpected transformation. Challenging the conventional wisdom that New York City’s renaissance started in the 1990s, Osman locates the origins of gentrification in Brooklyn in the cultural upheavals of the 1960s and 1970s. Gentrification began as a grassroots movement led by young and idealistic white college graduates searching for “authenticity” and life outside the burgeoning suburbs. Where postwar city leaders championed slum clearance and modern architecture, “brownstoners” (as they called themselves) fought for a new romantic urban ideal that celebrated historic buildings, industrial lofts and traditional ethnic neighborhoods as a refuge from an increasingly technocratic society. Osman examines the emergence of a “slow-growth” progressive coalition as brownstoners joined with poorer residents to battle city planners and local machine politicians. But as brownstoners migrated into poorer areas, race and class tensions emerged, and by the 1980s, as newspapers parodied yuppies and anti-gentrification activists marched through increasingly expensive neighborhoods, brownstoners debated whether their search for authenticity had been a success or failure.

The thrilling final installment in Tanya Huff’s military sci-fi adventure Confederation series Gunnery Sergeant Torin Karr was the very model of a Confederation Marine. She ’ d survived more deadly encounters than anyone in the Corps. No one who ’ d ever served with her could imagine her walking away from the Corps. But that was before Torin had learned the truth about the war the Confederation was fighting ... before she ’ d been declared dead and had spent time in a prison that shouldn ’ t exist... It was Salvage Operator Craig Ryder who had refused to believe Torin was dead. Craig who found and rescued Torin. And so, when her mission was complete, Torin resigned from the Marines to start a new life with Craig aboard his tiny salvage ship, the Promise. But civilian life was a lot rougher than Torin had imagined. The salvage operators were losing cargo and lives to pirates. Because salvagers were an independent lot unwilling to turn to the OutSector Wardens for help, no one in authority seemed to take their ever-increasing threat seriously. Then, on their first real run together, pirates attacked the Promise, kidnapping Craig and leaving Torin to die. But leaving Torin behind to die was never a good strategy. Against all odds, she survived, and certain—despite no evidence to prove her correct—that Craig was still alive, she decided to mount a rescue mission. When Craig ’ s salvager friends refused to join her, Torin had no choice but to call in the Marines—some very special Marines. Then she discovered why the pirates had been trying to kidnap salvagers. And suddenly Torin ’ s mission expanded from saving Craig to stopping the pirates from changing the balance of power in known space....

This campaign guide offers both players and Gamemasters a wide array of new options that can be used to craft a unique roleplaying game experience. Featuring new game material, this book presents an entire campaign during the violent days of the Old Republic.

The chronicles of THE WINTER OF THE WORLD echo down the ages in half-remembered myth and song - tales of mysterious powers of the Mastersmiths, of the forging of great weapons, of the subterranean kingdoms of the duergar, of Gods who walked abroad, and of the Powers that struggled endlessly for dominion. In the Northlands, beleaguered by the ever-encroaching Ice and the marauding Ekweh, a young cowherd, Aliv, saved from the raiders by the mysterious Mastersmith, discovers in himself an uncanny power to shape metal - but it is a power that may easily be turned to evil ends, and on a dreadful night Aliv flees the Mastersmith, and embarks on the quest to find both his own destiny, and a weapon that will let him stand against the Power of the Ice.

Written by gifted storyteller Winston Groom (author of Forrest Gump), The Aviators tells the saga of three extraordinary aviators--Charles Lindbergh, Eddie Rickenbacker, and Jimmy Doolittle--and how they redefine heroism through their genius, daring, and uncommon courage. This is the fascinating story of three extraordinary heroes who defined aviation during the great age of flight. These cleverly interwoven tales of their heart-stopping adventures take us from the feats of World War I through the heroism of World War II and beyond, including daring military raids and survival-at-sea, and will appeal to fans of Unbroken, The Greatest Generation, and Flyboys. With the world in peril in World War II, each man set aside great success and comfort to return to the skies for his most daring mission yet. Doolittle, a brilliant aviation innovator, would lead the daring Tokyo Raid to retaliate for Pearl Harbor; Lindbergh, hero of the first solo flight across the Atlantic, would fly combat missions in the South Pacific; and Rickenbacker, World War I flying ace, would bravely hold his crew together while facing near-starvation and circling sharks after his plane went down in a remote part of the Pacific. Groom’s rich narrative tells their intertwined stories--from broken homes to Medals of Honor (all three would receive it); barnstorming to the greatest raid of World War II; front-page triumph to anguished tragedy; and near-death to ultimate survival--as all took to the sky, time and again, to become exemplars of the spirit of the “greatest generation.”

From the author of THE REVENANT: A HORROR IN DODDSVILLE comes another suspenseful page-turner.The Haunting of Stephen Wells opens with the title character lost deep within the northern Wisconsin woods as he attempts to find his best friend’s cabin before nightfall. Thirty-eight-year-old Stephen has quit his job in Las Vegas after his four-year-old daughter’s death and an ugly divorce, and now plans to spend two weeks " relaxing " at his friend’s secluded cabin and getting his life back together. At first it seems to work. Yet, on his first night, a noisy quarrel at the cabin across the lake immediately disturbs his peaceful rest, and later he is jolted awake once again, this time by a frightening wailing—almost but not quite human—and the haunting begins. Internally, he struggles with his recent past and thoughts of ending his life enter his mind. But his luck seems to change when he meets a young beautiful woman, Laura, who, he discovers, shares a horrifying experience from his own past. He barely gets to enjoy his newfound luck, however, before it abruptly changes—and this time for the worse. Laura turns up missing, and Stephen must face the ghost who haunted him in his childhood if he has any hope of saving Laura. And he soon discovers, in order to save her, he must find the missing body of a woman murdered five years ago—before her killer does.The twists and turns during the course of the novel will keep the reader turning the pages to see what actually happens.
