By comparison, the Optoma PK301 and its power supply together are about as light, as "just" the power adapter for my old LG. So it is really small and light, like an order of magnitude lighter than you might think. But is also at least an order of magnitude brighter than any other pico projector. When plugged in, the 50 lumens that it projects is the difference between a truly adequate viewing ...

filmgoers worldwide with its unique focus on the key ingredient for success in the growing global documentary marketplace: storytelling. This practical guide reveals how today's top filmmakers bring the tools of narrative cinema to the world of nonfiction film and video without sacrificing the rigor and truthfulness that give documentaries their power. The book offers practical advice for producers, directors, editors, cinematographers, writers and others seeking to make ethical and effective films that merge the strengths of visual and aural media with the power of narrative storytelling. In this new, updated edition, Emmy Award-winning author Sheila Curran Bernard offers: New strategies for analyzing documentary work New conversations with filmmakers including Stanley Nelson (The Black Panthers), Kazuhiro

To those on the outside, the Powells are a happy family, but then a devastating accident destroys their fragile facade. When seven- year-old Henry is blamed for the tragedy, he tries desperately to make his parents happy again. As Henry grows up, he is full of potential—a talented sportsman with an academic mind and a thirst for adventure—but soon he questions if the guilt his parents have burdened him with has left him unable to escape his anguished family or their painful past. With a delicate touch and masterful attention to detail, New York Times bestselling author Elizabeth Flock invites us to meet a man both ordinary and extraordinary, and to experience a life that has yet to be lived.

Stone shows how shared meanings can be learnt and expressed between autistic and non-autistic individuals, though they experience different perceptions of reality. She presents ways of creating autistic-friendly environments, modifying traditional responses to autistic behaviour and using literal learning, providing useful examples and exercises.

Working as a recording engineer presents challenges from every direction of your project. From using microphones to deciding on EQ settings, choosing outboard gear to understanding how, when and why to process your signal, the seemingly never-ending choices can be very confusing.
