The New York Times bestseller: "Hilarious. No mushy tribute to the joys of fatherhood, Lewis' book addresses the good, the bad, and the merely baffling about having kids."—Boston Globe When Michael Lewis became a father, he decided to keep a written record of what actually happened immediately after the birth of each of his three children. This book is that record. But it is also something else: maybe the funniest, most unsparing account of ordinary daily household life ever recorded, from the point of view of the man inside. The remarkable thing about this story isn't that Lewis is so unusual. It's that he is so typical. The only wonder is that his wife has allowed him to publish it.

International courts have proliferated in the international system, with over one hundred judicial or quasi-judicial bodies in existence today. This book develops a rational legal design theory of international adjudication in order to explain the variation in state support for international courts. Initial negotiators of new courts, 'originators', design international courts in ways that are politically and legally optimal. States joining existing international courts, 'joiners', look to the legal rules and procedures to assess the courts' ability to be capable, fair and unbiased. The authors demonstrate that the characteristics of civil law, common law and Islamic law influence states' acceptance of the jurisdiction of international courts, the durability of states' commitments to international courts, and the design of states' commitments to the courts. Furthermore, states strike cooperative agreements most effectively in the shadow of an international court that operates according to familiar legal principles and rules.

Hired killers. Vigilantes. Executioners. Paid killers or assassins working from a moral or political motivation. You'll find them all in this thrilling anthology. But these are not ordinary killers, not your run-of-the-mill hitmen. The emphasis is on the "uncommon" here-unusual characters, unusual situations, and especially unusual means of killing. Here are tales by some of the best suspense/thriller writers today, including F. Paul Wilson, Ken Bruen, J. Carson Black, Billie Sue Mosiman, Laura DiSilverio, and 18 others. The stories range from historical fiction to science fiction to political thriller-there's even an alternate history story in the mix.

"Uncommon Assassins is a nicely put together anthology and there's something to love for crime and mystery fans alike. As with any good anthology, you'll probably discover a new author that you'll want to add to your to-be-read list, and also some stories from some old favourites." -- Crime Fiction Lover Stephen England - Nightshade J.
