Luther then argued that everyday work is imbued with spiritual significance. He wrote in *The Babylonian Captivity of the Church* that, ...the works of monks and priests, however holy and arduous they may be, do not differ on whit in the sight of God from the works of the rustic laborer in the field or the woman going about her household tasks...all works are measured before God by faith alone.

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the care of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new

subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend-ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at

a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a

beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

No historical study of current issues—in politics or social science or theology—can far proceed without bringing the student face to face with the principles asserted by the Reformation of the Sixteenth Century and its great leader, Martin Luther. He has had many critics and many champions, but neither his critics nor his champions feel that the last word concerning him has been spoken, for scarcely a year passes that does not witness the publication of a new biography. Had

Luther been nothing more than a man of his own time and his own nation the task of estimating him would long since have been completed. A few exhaustive treatises would have answered all demands. But the Catalogue of the British Museum, published in 1894, contains over two hundred folio pages, averaging about thirty-five titles to the page, of books and pamphlets written either by or about him, that have been gathered into this single collection, in a land foreign to the sphere of his labors, and this list has been greatly augmented since 1894. Above all other historical characters that have appeared since the first years of Christianity, he is a man of the present day no less than of the day in which he lived. But Luther can be properly known and estimated only when he is allowed to speak for himself. He should be seen not through the eyes of others, but through our own. In order to judge the man we must know all sides of the man, and read the heaviest

as well as the lightest of his works, the more scientific and theological as well as the more practical and popular, his informal letters as well as his formal treatises. We must take account of the time of each writing and the circumstances under which it was composed, of the adversaries against whom he was contending, and of the progress which he made in his opinions as time went on. The great fund of primary sources which the historical methods of the last generation have made available should also be laid under contribution to shed light upon his statements and his attitude toward the various questions involved in his life-struggles.

Martin Luther's Basic Theological Writings has become the gold standard for use in seminary and college environments. It not only offers all of Luther's most influential, noted, and important writings in the modern translations but also includes excerpts of his sermons and letters that shed light on Luther's own religious and theological development. The volume takes the reader straight to Luther the man, to his controversial Reformation insights, to his strongest convictions about God and Scripture and the life of the church, and most valuably to his theology—a still-exciting encounter with the meaning of Jesus Christ for each age.
