His common sense approach to sharing techniques on how to make you a great adjuster and providing easy to apply techniques is not seen in most books. After reading this book you will find yourself with many techniques on how to be efficient at what you do, producing great claim files while amazing your customers. His promise to just give key facts will allow anyone to use this book as a reference for years to come. What a refreshing presentation that is geared to truly helping adjusters be great, without having to sift through needless information. Danny lays out a tried and true formula for becoming a great, well rounded adjuster with a fantastic approach to adjusting claims. And Danny does it all in an excellent way that will stay with you long after you finish his book. I highly recommend that all adjusters, from the newest adjuster just entering the property insurance industry to the most experienced adjusters at the tail end of their career, take the time to read and study this outstanding book.

When someone suffers a serious loss at their home or business, one of the first things they often think is this: "At least I have insurance." But the claims process is deviously designed to pay only pennies on the dollar for losses. Furthermore, if you take an insurance company to court, you'll find that the legal system is stacked against you. David Skipton brings his many years of claims adjusting experience to help you avoid the pitfalls in the claims process. Learn how to: recognize the tricks insurance companies play to cheat you out of money; take steps to improve your chances of enjoying a favorable outcome on a claim; and receive fair compensation in the event of an insurance payout. It doesn't matter if you own a business or a home-if you have an active claim or not-it's important to demystify the claims process. It begins by learning how to protect your best interests and learning how to play The Claims Game.

An expose of insurance injustice and a plan for consumers and lawmakers to fight it Over the last two decades, insurance has become less of a safety net and more of a spider's web: sticky and complicated, designed to ensnare as much as to aid. Insurance companies now often try to delay payment of justified claims, deny payment altogether, and defend these actions by forcing claimants to enter litigation. Jay M. Feinman, a legal scholar and insurance expert, explains how these trends developed, how the

government ought to fix the system, and what the rest of us can do to protect ourselves. He shows that the denial of valid claims is not occasional or accidental or the fault of a few bad employees. It's the result of an increasing and systematic focus on maximizing profits by major companies such as Allstate and State Farm. Citing dozens of stories of victims who were unfairly denied payment, Feinman explains how people can be more cautious when shopping for policies and what to do when pursuing a disputed claim. He also lays out a plan for the legal reforms needed to prevent future abuses. This expos é will help drive the discussion of this increasingly hot- button issue.
